## SEN. WHEELER TO RUN WITH LA FOLLETTE

Montana Senator Reconsiders, Goes With LaFollette.

## FLAYS BOTH SIDES

Still a Democrat Though Not of the Wall Street Variety, Running Mate Says.

By Associated Press.  
WASHINGTON, July 19.—Senator Burton K. Wheeler, Montana, Democratic proponent of the Senate Emergency Committee, today announced his acceptance of the second place on the Independent presidential ticket headed by Senator LaFollette. Although he had previously announced he would not accept such designation, Wheeler reversed his decision after he had been urged by LaFollette and several of his principal advisors.

By Associated Press.  
WASHINGTON, July 19.—"I am a Democrat but not a Wall Street Democrat," Wheeler said in a letter in which he accepted. The Democratic party, he continued, had "wanted only to abandon an opportunity to render a great public service" and that both it and the Republican party had "ignored the call of the unorganized millions who were victims of the present economic disorders."

## TEACHERS' SCHOOL SUCCESSFUL TERM

Training School Finishes Successful Year at Frankfort—Work Is Splendid.

FRANKFORT, July 19.—The teacher-training school year just closed has witnessed a substantial growth, both in quantity and quality of work offered for the professional education of teachers at the University of Kentucky. Prof. C. Ivan Barnes, director of vocational training, declared today in a statement to Gov. Fields.

"Each division of the vocational teacher-training department is offering a new course and each division is working earnestly to make each course offered of the greatest possible worth," he said.

Perhaps most significant achievement of the year and one that gives the greatest promise for good insofar as vocational education is concerned is the plan of the College of Agriculture to have each student, majoring in agriculture, complete six units of education in the sophomore year. This will enable the College of Education to select those men who give promise of becoming good teachers, and to interest them in the program of vocational education in agriculture.

"Of almost equal importance is the expanded program for practice teaching in home economics. It has always been difficult to provide adequate practice facilities for this work. Through the cooperation of the city and county superintendents of schools, the University was able to use Picadome and Faulconer high schools in Fayette and Jefferson Davis Junior high school in the city. These, with the University high school, gave a much better opportunity for carrying out this part of the work.

"Industrial education is a more difficult problem than either agriculture or home economics. There is no resident program in industrial teacher-training and cannot be in the immediate future. Extension program is dependent in large part upon the development of industrial education in Kentucky. It has been necessary this year to spend too much time in promotional work and too little time on instruction. The greater part of the class work has been with teachers interested in vocational guidance and in continuation school work."

## Long Distance Telephone to Evans Now

Manager Glover announces that the Cumberland Telephone & Telegraph Co. now has connections with Evans in Harlan County. This section of the coal fields has never had long distance telephone connection, and coal operators have long felt the need of the long distance telephone. The connection is made through the Evans-Harlan Telephone Company, who have a new system with about 125 telephones.

## "SAVES LIFE" ONLY TO LOSE CLOTHING

Sanaritan Comes Home In Blanket Watch and Fifty-Eight Dollars Gone.

LOUISVILLE, July 19.—Ernest Jewell, 22 years old, assaying the roll of lifesaver-Samaritan yesterday; rescued a young lady with bobbed hair from an attempt "to end it all" in the Ohio River; and was brought back to Louisville clothed in a blanket. His clothes, which he gave to the would-be self-destructor to dry, are unaccounted for together with his \$50 watch and \$58 the apparel contained, he told county police.

Jewell, second-year law student at the University of Louisville and operator of a soft-drink establishment, was motoring along the river road with a young woman friend when told by a young boy that the informant's sister was attempting to drown herself.

The motorist rescued the would-be victim of the river after difficulty, and then she suggested he permit her to have his clothes dried, he said.

Retiring to the shelter of undergrowth fringing the river bank, he removed and tossed to the rescued young woman his wet apparel.

After a protracted wait, he said, he called to his companion in the motor car, who tossed him a blanket from the machine. Attired in the blanket, he was able to leave his retreat by the river side and return to town.

## WILLIAMS IS NEW L. M. U. MANAGER

Appointments by Dr. Matthews Effective August 1—Was Here for Six Years.

C. P. Williams, assistant cashier of the Citizens Bank and Trust company, has been appointed business manager of the Lincoln Memorial University by Dr. R. O. Matthews, president of the institution. The appointment will be effective August 1.

Mr. Williams is falling back into work of his choice in accepting the university position. This kind of work he started out to do early in life but was forced to abandon it on account of his health. For some time he was manager of a large farm owned by Senator Wetmore of Rhode Island in Polk county, Tenn.

Later he took up civil engineering and made a decided success of this work. One of his achievements which has been considered among the outstanding engineering feats of the south was the location of the highway over Kinsey mountain in Polk county.

Six years ago, Mr. Williams came to Middlesboro and accepted a position at the Citizens' bank. In the capacity of assistant cashier he has demonstrated well his ability in business matters. His home is in Harrogate though he has a large number of friends here who will be sorry to hear of his leaving but gratified to know that he is taking a position of trust with the university in which his sphere of usefulness will be limitless.

Mr. Williams succeeds Clay Cunningham who resigned the management of the university some months ago to enter a new business at Maryville.

## TRIO TO DIE IN ELECTRIC CHAIR

Murderers of Frank Buchanan Will Die at Eddyville on October 24th

By Associated Press.  
PARIS, July 19.—Elmer Hall, Robert Newhouse and George Farrell were today sentenced to be electrocuted at Eddyville October 24 for the murder of Frank Buchanan in an attempted robbery of the Clintonville bank June 11. Robert Mullen, the fourth bandit, confessed, pleaded guilty and was given a life sentence.

## Classes for German Youth

By Associated Press.  
WEIMAR, Germany, July 18.—Boys and girls from the high schools of all Germany assemble in Weimar during the second half of June and the first half of July each year to see the plays staged by the National Schiller Society. The society aims to acquaint the growing generation with masterworks of German culture. This year's program includes Schiller's "Wallenstein" trilogy, Goethe's "Egmont," and Wagner's "Tannhauser," and "Meistersinger." This year 6,000 young people applied for permission to witness the plays.

## MIDDLESBORO LEGION POST REORGANIZED

L. D. Rouser Commander of Revived Ex-Service Order.

## LARGE ATTENDANCE

Nearly All Men to Join Legion or V. F. W.—To Give Free Bonus Service Tuesday.

Reorganization of the American Legion took place at a rally meeting of local ex-service men at the Carnegie library last night and interest in other lines of ex-service men's work were stimulated. About 100 men were in attendance.

L. D. Rouser opened the meeting by explaining its purposes. He stated that practically every man present was eligible for membership in either the American Legion or the Veterans of Foreign Wars, or both, and urged them to join the orders. The latter organization, he explained, under the leadership of Commander A. D. Delusk, has already built up a flourishing post here. Will Hise, president of the Legion for the past five years, then took charge of its reorganization.

L. D. Rouser was unanimously elected commander. Other officers chosen were: J. W. Smith, adjutant; George Tiller, vice-commander; G. H. Tollett, finance officer; Bayard Yaden, historian; J. H. Johnson, sergeant-at-arms.

Blanks were issued to all the men on which they indicate the order of their choice, the majority of those eligible to both signified their intention of joining the Legion and the V. F. W. Federal bonus application blanks were then issued and Commander Rouser announced that on next Tuesday evening from 7 to 9 o'clock, at the Carnegie library these application blanks would be written, attested and finger prints taken for all who so desired and that the service would be absolutely free. Those who desire this service must bring their army discharge certificate.

J. W. Smith announced that he was making arrangements for a prize fight here on Labor Day, whereupon W. A. Cooper of Middlesboro, declared he was willing to meet any fighter in the ring whose weight does not exceed 165 pounds.

Refreshments consisting of ham sandwiches, cake, ice cream and lemonade were served at the close of the meeting. Middlesboro Jazz Hounds furnished lively music for the occasion.

## Five Meet Death In Automobile Plunge

By Associated Press.  
BUENA VISTA, Colo., July 19.—Five persons were killed here late last night when an automobile broke through a bridge and dropped fifty feet into the Arkansas river.

## WINDY CITY WAKES UP TO ROUTE NEEDS

Chicago Business Interests Pledge Support to Completion of Dixie Route.

CHICAGO, July 19.—Chicago Hotel retail and wholesale interests yesterday pledged support to the efforts of communities in the Kentucky and Tennessee mountains to secure completion of the Dixie route "A" highway between Chicago and Florida, provided the project is endorsed by the Chicago Association of Commerce. The association it is understood, favors co-operation with the government, North Carolina, Ohio and Michigan cities and recognition of the struggle put up by impoverished counties in the Cumberland area to have finished the first "all weather direct route" from North to South.

## NEGRO LYNCHED IN MISSISSIPPI

Accused of Assaulting White Woman Recently—Hung and Riddled.

By Associated Press.  
MERIDAN, Miss., July 19.—Harry Shelton, a negro, was taken from jail at Scobles, Miss., last night by thirty-five men and lynched. He was hanged to a tree and his body was riddled. He is said to have attempted to assault a white woman a week ago.

## BRIG LOOMS

Lieutenant May Rue "Patriotic" Act In Assaulting Man  
By Associated Press.  
KNOXVILLE, July 19.—Warrant for the arrest of Lieut. Hubert Talifero, of the 109th Tennessee Cavalry at Camp Sevier on charge of assault and battery, had not been served today. Camp officials maintained that the officer was amenable to camp discipline and refused to point him out for arrest. The lieutenant was leading a parade in the city Thursday and knocked Bishop's hat off when he refused to salute the colors.

## MINERS FAIL TO CARRY OUT THEIR THREATS

Oklahoma Miners Resume Work Unmolested.

## SHERIFF ON GUARD

Strikers Threatened to Invade Camp in Numbers and Cause Suspension of Work.

By Associated Press.  
WILBURTON, Okla., July 19.—About 100 miners went back to work today at the McConnell coal shaft, here and all immediate prospects of a threatened repetition of the disorders that occurred yesterday at the Kalainla mine, at Cambria, seemed dissipated, according to Sheriff Parks who, with five deputies, is on guard at the shaft.

The threat was conveyed to employees of the Digan mines who were working on an open shop basis that an invading force from the mining community of Harshorne would descend on the mine today and force a suspension of work. The invasion expected early today failed to materialize. State troops are being held in readiness, however, to respond to a call from the country officers should any attempt be made to carry out the threat.

## TWO HANGED IN ST. LOUIS CITY JAIL

First Execution in That City for the Past Seventeen Years.

ST. LOUIS, July 19.—Charles Merrill, 23, and Hugh Pinkley, 35, convicted slayers of Patrolman Michael O'Connor, were hanged at 4:08 o'clock yesterday afternoon. It was the first legal execution in St. Louis in 17 years.

The double hanging was virtually simultaneous. The men stood on parallel trap-doors on the sixth floor of the city jail, and were dropped through the ceiling to the fifth floor. Pinkley was pronounced dead after 15 minutes and Merrill after 19 minutes by Dr. R. S. Vitt.

They killed the officer after an attempted payroll robbery.

## Week's Weather Forecast.

By Associated Press.  
WASHINGTON, July 19.—Showers and thunder storms about the middle and again during the latter half of the week. Beginning Monday, temperature will be near normal.

## Free Hydraulic Baths Furnished to Pedestrians

Breaking of a water main by street grading on Exter avenue late yesterday afternoon attracted considerable attention. A strong stream of water was thrown beyond the opposite side of the street. Bystanders threw large stones into the crater but these were forcibly expelled by the hydraulic jet. The occasion furnished a great deal of amusement for onlookers, though many suppers were doubtless delayed by the shortage of water resulting in points west of the leak.

A number of intrepid pedestrians passed along the sidewalk under the terrific downpour and all were given a thorough bath, even though it was only Friday night. Repair of the broken main brought the free performance to an end.

## COOLIDGE IS HOPEFUL OF RE-ELECTION

Political Constellation Favorable to the Chief.

## TALK WITH BUTLER

President, in Conservative Estimate, Feels Certain of Election, Leaders Report.

WASHINGTON, July 19.—President Coolidge, on being asked for an expression of opinion on republican prospects in the forthcoming campaign, said he regarded the situation as hopeful.

Political advisers of the president declared his statement to be an illustration of the caution often attributed to him, but the statement stood as his own estimate of the present situation.

First-hand reports of the political situation in about a dozen states have been laid before Mr. Coolidge this week, all predicting large majorities for the republican national ticket on the basis of present indications. Mr. Coolidge is inclined to discount the predictions somewhat, especially at this stage of preliminaries to the campaign, and is said to believe no campaign can be laid definitely as won or lost three and a half months before election.

## Not Active Yet

Beyond the political conferences, the president does not feel he has begun active political work. He has not started drafting the address he will deliver at the notification ceremonies here August 14, but he has given some thought to it. He gave visitors yesterday the impression that in setting forth his appeal for support at the polls he would present a review of accomplishments of republican administration since 1921, making this the primary basis of the request for support.

Although John W. Davis, the democratic presidential nominee, will deliver his keynote acceptance address prior to the date set for the republican presidential candidate's notification, Mr. Coolidge does not propose to make his acceptance address a reply to the speech made by Mr. Davis.

Mr. Coolidge will talk over his ideas as to the acceptance speech next week with Mr. William M. Butler, chairman of the republican national committee. Mr. Butler is expected to come to Washington Monday and to spend some time in consultation with the president before returning to the general campaign headquarters in Chicago. It was said flatly yesterday by republican leaders here that the general headquarters would be maintained in Chicago throughout the campaign although George Bar Baker, the director of publicity, would maintain his offices here and although Mr. Butler would spend considerable time here in consultation with Mr. Coolidge.

## FATAL AUTOMOBILE WRECK AT BIG STONE

Sneadville Girl Dies In Fall From Car When Head Strikes the Ground.

BIG STONE GAP, Va., July 19.—Miss Lilly Goins, of Sneadville, Tenn., was injured fatally Thursday night, when she fell from an automobile, and her head striking the ground violently. She had been visiting two sisters at Stonegap, Va., and was riding with a party of friends when the accident occurred. She was taken to a physician here, then taken to the Stonegap hospital, where she died.

Miss Goins was a sister of Miss Mollie Goins, a nurse in Knoxville.

## COMMITTEE WILL INSURE CREDITORS

Inter-Allied Conference Committee to Insure Against German Default.

By Associated Press.  
LONDON, July 19.—The committee of the Inter-Allied Conference under the Dawes scheme, today unanimously agreed to insure investors in loans to Germany priority on all German resources in the event of Germany's default. The committee also agreed to preserve all rights enjoyed by nations which signed the Versailles treaty.

## MAC DONALD HOLDS "LONG WIND" TITLE

Thirty-one Columns Ahead of His Nearest Competitor in Speaking

Associated Press.  
LONDON, July 19.—Premier MacDonald has talked more in the House of Commons than anyone else; and is 31 columns of the official report of the Parliamentary Gazette ahead of his nearest competitor. According to the record from January to the Easter recess, the Premier's speeches covered 126 columns, William Graham, financial secretary to the treasury, being next with 95 columns and Sir Kingsley Wood third with 76 columns. Lloyd George only fills 47 columns, and Henry Asquith 36, while Stanley Baldwin takes fifteenth place with 46 columns.

It is noted that the Clydeside members are comparatively reticent, Tom Johnstone and Nell Maclean filling only 30 columns each. James Kirkwood is not mentioned, because only those who can fill 20 columns are recorded.

In the matter of asking questions Commander Kenworthy easily holds first with 239 questions, or 168 more than Sir Kingsley Wood, who is second on the list.

With power and office comes criticism, and this is indicated by the number of oral questions answered, the premier having 561 answers to his credit, Minister of Health John Wheatley 288 and Minister of Labor Tom Shaw 282.

## PUT OFF TRAIN. CAN'T TELL NAME

Aged Man at Cleveland, Tennessee, In the Care of County Authorities.

CLEVELAND, Tenn., July 19.—An aged man was found at an early hour yesterday morning sitting on a bench on the courthouse lawn with his memory gone. When questioned he stated that he was put off of a train here Thursday. He could not remember his name, place of residence, or anything prior to being put off of the train; could not even remember where he got on the train.

He said that he was tired and hungry. His hunger had caused him to go to a local meat market and purchase some steak, which he had with him. He had written the name, Bud Tate, on the package, and when shown the name, at first said that it was his, but later said that it did not sound right. He could not even remember purchasing the steak, but said that a man handed it to him.

The man is apparently between 60 and 70 years of age; he will weigh about 115 pounds, and is about 5 feet 7 inches tall.

He was taken to the office of the county physician, and is being kept there in the hope that he will recover sufficiently his memory to be able to tell where he lives.

## Louisville Livestock.

By Associated Press.  
Cattle, 200, unchanged; hogs, 1,500, cents higher, \$5 and \$8.20; sheep, 2,000, unchanged.

## THREE ESCAPE FROM TAZEVELL CO. JAIL

Townsend and Jake and Al Young, Take Leg Bail in Claiborne County.

TAZEVELL, Tenn., July 19.—Sam Townsend, charged with possessing a still and Albert Young and his brother, Jake, charged with felonious assault broke jail here yesterday afternoon by cutting a hole through the wall with a mattock which was found in jail. They had 20 minutes start when the news reached Claiborne county officials at the courthouse. Diligent search has been made, but to no avail. Two prisoners refused to take leave, Claude Gaylor and Elbert Atkins.

## Germans Turning From Drink to Temperance

By Associated Press.  
BERLIN, July 19.—Temperance restaurants are on the increase in Berlin. Whether this is due to the high price of beer and other alcoholic drinks or to an increase of the population which desires meals without drinks, the authorities do not agree. Proprietors of the alcoholless restaurants say the majority of their customers are total abstainers and are very much interested in the prohibition movement in the United States and other parts of the world.

## VICE-CONSUL IS KILLED BY PERSIAN MOB

Report Form American Minister Stationed at Teheran.

## RELIGIOUS FRENZY

Another American Is Severely Beaten by Mob Engaged in Religious Demonstration.

By Associated Press.  
WASHINGTON, July 19.—A message received today by the State Department from the American minister, Joseph S. Kornfeldt at Teheran, Persia, said that Vice-Consul Robert Imbrie died from a shock at 3 o'clock yesterday after being brutally beaten by a mob.

The vice-consul and Melin Seymour, also an American, had stopped their carriage to witness a religious demonstration, the message said, and were rushed by the mob which mistook them for members of the sect known as Bahais against whom the demonstration was directed.

Seymour's condition is said to be so serious as a result of the beating he received he has been unable to make a statement. The announcement made by the department said that the mob practically cut and beat Imbrie to death. The attack on Imbrie occurred at 11 o'clock in the morning.

## ENDOWMENT FUNDS FOR NEGRO SCHOOL

First \$1,000,000 Fund Ever to be Raised for Colored Institution.

By Associated Press.  
NASHVILLE, July 19.—Completion of the first \$1,000,000 endowment fund ever to be established at a college for negroes was announced today by Dr. Fayette Avery McKenzie, president of Fisk University, which began its career in an army barracks in Nashville procured by General Clinton B. Fisk in January, 1866.

This fund has been made possible by matching a conditional offer of \$500,000 from the General Education Board of New York. Among those contributing are the Carnegie Corporation of New York, which gave \$250,000, the John F. Slater Fund of Charlottesville, Va., the J. C. Penney Foundation of New York and prominent individuals in New York, Philadelphia, Chicago, Cleveland and Boston.

Anticipating the successful completion of the \$1,000,000 endowment fund, the citizens of Nashville organized this spring to raise a supplementary fund of \$50,000 for Fisk. This is the first time that any such sum has been contributed by any Southern city for any type of negro education. Among the leaders in this local campaign are bankers, business men, educators and clergymen.

The endowment fund, the income of which is to be applied exclusively to teachers' salaries, is described as a "conspicuous recognition of the leadership which Fisk has achieved in meeting the growing need for higher education for the 11,000,000 negroes of the country" by Paul D. Cravath, of New York, who is chairman of the board of trustees and whose father was a founder of Fisk and served as its president for 25 years.

Coinciding with his announcement of the \$1,000,000 fund, Dr. McKenzie received a letter from the Rev. James A. Myers, leader of the Fisk University Jubilee Singers who are now on tour abroad. Mr. Myers writes that a special concert has been arranged at Lady Astor's home, and that the King and Queen are expected to be present. Fifty years ago the original group of Fisk University Jubilee Singers sang before Queen Victoria and the court circles of Europe.

## Miners' Pay Increased More Than 500 Percent

By Associated Press.  
SHAMOKIN, Pa., July 19.—The increase in miner's wages during the last 70 years was shown in old papers found when a building was razed here recently. The daily pay in 1858, the old records show, was \$1.12 for the average day worker, who now gets \$5.40. Opposite the name of one man his pay allowance for a week was \$6.76. In those days ten hours constituted a day's work, two more than the present schedule.

## A COMMUNITY OR JUST A PLACE

Old Absalom was ninety years old. For years he had been a familiar figure around the railroad station, picking up old pennies, carrying luggage and doing errands.

One day, after a heavy snow, the westbound express stopped at the station, and the passengers, warned of a long wait, left the chair cars to stretch their legs. One of them spoke to Absalom.

"What community is this, Uncle?" Old Absalom scratched his woolly head.

"What's a community, mister?"

"A community is a city or a town or a village where folks are sociable, where every man, woman and child gets together for common enjoyment and recreation; where all live and work together for the betterment of the town," replied the questioner.

"I'm pretty sure this year isn't no community," he said. "This heah is just a place."

It takes more than living together in a common locality, more than mere population to make a community. Neighborness, civic loyalty and pride, service through social groups to advance common interests, these make a community. A town may be but little more than a "place." It is that to the measure that it lacks the unity of thought and feeling and action that make a real community.

Does not Middlesboro need a great organization of the people, for the people, and by the people, a modern civic commercial body, in which the men and women of the city may come together and work together for the promotion of their general welfare? Would not the existence of such a body in our midst be unmistakable evidence that Middlesboro is a community in the full sense of that word?

## MIDDLESBORO'S EXAMPLE

Under the foregoing caption today's issue of the Louisville Times publishes an editorial commending our city and its active Kiwanis club. The editorial follows:

"That the Kiwanis club of Middlesboro has appointed a committee to work out plans for a tourist camp so situated that tourists 'will pass through the main part of the town, instead of going through one side of it, means that Middlesboro will have the camp that is contemplated. Things are done, not discussed merely, by the Middlesboro Kiwanians."

"Maybe Middlesboro's example of progress and appreciation of the value of the advertising and of the obligations of hospitality, will be constructive in Louisville. Here the destruction of the first tourist camp, in recognition of objections to its situation, in one of the parks, was not followed by the establishment of a second camp where its permanency could be assured."

"Louisville is the first city the tourist visits in Kentucky if he comes south via the Indiana highways. Middlesboro is the last Kentucky city he sees if he goes south through Central Kentucky and over the eastern Dixie Highway. Louisville is Kentucky's first city in population and wealth. Middlesboro is called the Magic City. It is a city of substantial growth and wealth and with a greater future, but it is a small center of population compared with Louisville."

"The Times expects to see Middlesboro Kiwanis Club put through its plan, and promises itself the pleasure of photographing the camp and passing the photograph around in Louisville, as showing what has been done by the last city in Kentucky on the southbound tourist's trip across the State."

## THE FORMAL NOTIFICATION

The formal notification of President Coolidge will take place in Washington about the 19th of August and similar ceremonies will be held at Evanston, Illinois a few days later when General Charles G. Dawes will be formally told that he has been selected as the running mate for Coolidge.

The speech of acceptance by the President will, according to close friends, be a document that will be understood by all the people, it will, no doubt, be as plain as was his first message to Congress, which it will be remembered brought forth thousands of letters and telegrams from all sections of the nation commending him upon his honest application of principles and the straightforward stand he had taken upon public questions. There will again be demonstrated to the people that the President is unafraid, that he prefers to use high sounding phrases in order to catch votes, or to offer to the people some theoretical remedy that everyone who stops to think will realize could not be put in force. Coolidge has always been honest with the people, he believes that they should be told the truth, he believes in their intelligence and their desire to do the right thing by their government, and he means to see that their government does the right thing by them.

Coolidge is the kind of a President who believes it his duty to use all the power of his office to see that the people of the United States are given a square deal. He believes it his duty to add to the measure the greatest amount of prosperity possible to all sections of the nation, he takes his job seriously and thinks less of the great honor of being president than he does of the opportunity that he has given to him to be of real service to his fellow citizen.

A Washington newspaperman, one who has followed politics carefully for many years made the following statement the other day—it was: "It is remarkable to see a man in high public office who cares so little for himself and so much for the people—the people believe in him; they demonstrated this at the primaries and I'll wager that you will see the votes coming out strong for him even long before election. I have talked with many democrats, some conservative who do not like the second on their ticket—progressive democrats will not accept the head, and they will have none of the independent candidate, claiming this is no time for experiments with theories, the great majority of these men recognize Coolidge's honesty and ability and unless I miss my guess, many who followed the war president or the democratic nominee in 1920 will go quietly to the poll and vote for Coolidge."

## BURDENSOME TAXATION

President Coolidge sounded the keynote for national preservation that the people are slow to tune in on. His efforts to obtain relief for the people from onerous taxation were made a political issue by democrats in Congress who sought to gain popular acclaim and political advantage by opposing their will and votes thereto. Public economy has been and is his watchword, and more and more it is believed the voters of the nation regardless of party will see the necessity of heeding his admonition. Senator Borah, alive to the national peril of economic profligacy, recently wrote in an agricultural publication that "the men who call a halt and take the lead in the return to sound principles of public economy will rightly be looked upon as the second founders of the republic." Too long the public treasury has been the mecca of politicians and alleged statesmen with "bourgeois house reach."

Economy is government as proposed by the President and opposed in Congress should indeed be the battle cry of the republic; for unless there is economy, unless there is a more equitable distribution of taxes which every year are mounting higher and higher, unless there is relief from burdensome taxation of land, agriculture itself, the bone and sinew of the nation will be threatened, if it is not already threatened.

One writer points out that the trend toward governmental confiscation of land is already clearly evident in the rapidly rising tax rate; that taxes are increasing much more rapidly than land values and bear no relation to the earning capacity of the land, instancing the fact that in Chester county, Pennsylvania, taxes now take two-thirds of the net cash rent of farms, while in many places taxes are already taking more than the annual value of the land.

The only solution of the problem is the reduction of public expenditures. President Coolidge battled for relief along this line, and for additional relief through reduction of Federal income taxes, particularly reduction of surtaxes, which would have uncovered through gainful investment in industrial enterprises millions that are now invested in tax-exempt securities, but a hostile minority in Congress blocked the way to relief. Our present system of taxation is wrong, in that it does not encourage thrift,

does not place the burden upon expenditure. The suggestion has been put forward that this nation might wisely follow the example set by Switzerland in abandoning even-odd taxation of property and income and resorting to various taxes on consumption, on expenditures for the luxuries or unnecessary articles of consumption. President Coolidge sounded the keynote—let the nation tune in. Knoxville Journal and Tribune.

If this is to be a fighting campaign we hope that Uncle Jim Campbell and Charley Dawes won't come together.

Regardless of his name we suppose there must be a Keltic strain in Mr. LaFollette for he's forever "again the government."

"Abe's Irish Rose" had a run of over nine hundred performances in New York which is about twenty better than the convention.

An editorial paradox is one when an enforcement is demanded on one side and how breaking is comforted on the same editorial.

After the experience of Mr. Jewell we are fully resolved never to wear our paper clothes into the river when we rescue young ladies with bubble to fish from watery graves.

It looks like a good way to settle the reputation question to French satisfaction, would be for Great Britain to draw a note for the whole amount of French want and then let Uncle Sam endorse it.

Somehow we can't agree with Mr. J. Borden Harbison that the day is in sight when women will take as active interest in politics as men but then when we think of the fact, session at congress, we brighten up and hope that they will.

Mr. Saunders, the New York theatrical manager, is cutting out "hell" and "damn" in his plays of the future and we suppose the poor man was obliged to do so the New York stock was about used up during the convention.

The Department of Labor announces that there has been a decrease in price on 101 commodities throughout the United States during the month of June but as far as our private investigation has gone we haven't noticed the price of gas going down.

Sam Gompers is so far recovered that he is able to stroll out and we suppose about the first thing the good old Englishman will do will be to forget all about John W. Davis being Morgan's lawyers and get ready to vote the democratic ticket as usual.

The Berlin police insist that cabmen and auto chauffeurs should be polite to each other and no doubt within a short time the Pineville-Middleboro bus men will be so taken with the idea that they will stop, park their machines and remove their caps every time we pass in our large super limo.

## Tom Sims Says

Popular songs are even more fascinating when you try to remember where the tunes were stolen.

Always carry a pump or a stamp speaker along on an auto trip in case you have to fix a puncture.

Stiff collars are going out of style. Men wear soft collars now to protect the women's necks.

No matter how old an old maid, she likes to say "We girls."

A blind man is the only one who can't see any use for silk stockings.

Nearly everybody knows who will be our next president, but they don't all agree.

A president has a tough job. The

## Babe Ruth Batting Champ of the American League

Breaks in With Average of .384—17 Hits Last Game.

### "BIB" FALK SECOND

American Batting King Grabbed 26 Homers this Season—Goslin Cops Third Place.

By Associated Press.

CHICAGO, July 19.—Babe Ruth, who, in 1921, gave the baseball world something to talk about when he slammed out 59 home runs, today has a right to stick his bulging chest out just a bit farther. The Bambino has crashed into the batting leadership of the American League with an average of .384, leaving "Bib" Falk of the White Sox, the leader a week ago, in second place with .360.

Ruth, in his climb to the top, gathered seventeen hits in his last nine games, four of which were homers. This gives him a total of 108 hits thus far this season and a string of 26 homers, the high mark of the major leagues. The figures are based on

BABE RUTH

games including those of Wednesday.

Goslin of Washington elevated himself to third place with an average of .353, followed by Ty Cobb with .319. Jamie-on of Cleveland slipped into place with .317. Maurice Archdeacon, outfield star with the White Sox, is batting .380, but has only participated in 42 games.

Eddie Collins of Chicago continues to blaze the way for the base stealers, adding three for a total of 24, a safe margin over his rivals. Other leading batters:

Sheely, Chicago .338; Heilmann, Detroit .336; Jacobson, St. Louis .332; Mott, Chicago .332; J. Sewell, Cleveland .330; Speaker, Cleveland .329; Meusel, New York .328; Collins, Chicago .326; Judge, Washington .325.

George Kelly, first baseman with the New York Giants was the week's sensation in the National League. He made seven home runs in six consecutive days, which is a new major league record, and now has fourteen homers to his credit. Despite his hard hitting, however, he moved up the ladder only a few points in percentage, being stopped by his teammate, Snyder, who is in third place, with an average of .361. Kelly's mark is .360.

Rogers Hornsby of St. Louis is still above the .400 mark, his average being .401 giving him a comfortable lead. His closest rival is Zack Wheat

Recent experiments prove that a good food for cows can be made from pine sawdust, treated with certain non-injurious acids under steam pressure.

of Brooklyn, who is second with .375.

Jack Fournier, a teammate of Wheat's in his attempt to overtake Ruth for the home run honors, pounded out four circuit drives running his string to twenty-one.

Max Carey of the Pirates cut loose on the base lines and as a result ran his total of stolen bases to 23, giving him a substantial lead. Other leading batters:

Young, New York .352; Fournier, Brooklyn .350; Roush, Cincinnati .345; Bressler, Cincinnati .342; Grigby, Chicago .33; Frisch, New York .320; Cunningham, Boston .320.

The three cornered race for batting honors in the American Association involving Dessen and Neun, the St. Paul stars, and Bunny Brief of Kansas City, has practically overshadowed everything in the league.

Dessen, entrenched in third place, suddenly advanced over the breast works to the top with an average of .393. His margin, however, is only one point better than that of Brief, while Neun, the other Saint, is pointing away at a .391 clip.

Neun is far in advance of the base stealers with a total of 31 thefts. Reh home run hitters with 14. Brief and Russell of Columbus is leading the Earl Smith of Minneapolis and Elmer Smith of Louisville have gone into a triple tie for second place honors with 12 each. Christensen of St. Paul is leading the run getters with 97.

Other leading batters: Earl Smith, Minneapolis .370; Christensen, Indianapolis .347; Allen, Indianapolis .343; Russell, Columbus .342; M. Shan non, Louisville .341; Brooks, Columbus .338; Tyson, Louisville .332.

By smashing out fourteen hits in his last nine games, Guyon of Little Rock climbed up on the batting leaders of U. S. Southern Association. In ninth place a week ago, Guyon today is perched in fourth place with an average of .318. J. Smith of Atlanta, is leading with .386, while Carlisle of Memphis, runnerup a week ago, is trailing with .372 with Burrus of Atlanta, third with .354.

Lapan of Little Rock dropped to sixth place.

Anderson of Chattanooga with fifteen homers is leading in circuit drive. Marriott of Mobile is the premier base stealer with 32 thefts, while Stewart of Birmingham, is on his heels with twenty-nine.

Other leading batters: Paschal, Atlanta .347; Lapan, Little Rock and New Orleans .346; Yarran, Memphis .344; D. Williams, Mobile .342; Tucker, New Orleans .340; Barber, Little Rock and Memphis .332.

## STATE-WIDE ROAD SYSTEM FOR FLORIDA

Plan System of Highways Throughout Entire State.

### TOTAL 3,506 MILES

Construction Program Continues Regardless of Expense; 1,000 Convicts Assist.

By Associated Press.

TALLAHASSEE, Fla., July 18.—Working under provisions of an act of the legislature designating a system of roads to provide highways reaching from one end of the state to the other, the Florida State Road Department is making steady progress toward completion of the network of roads, that have a total mileage of 3,506. In addition to work being done by the state, counties are bonding themselves and spending millions of dollars yearly in order to expedite construction of the road.

The state road department has only about \$4,500,000 a year to operate on, in addition to labor of a thousand or more state convicts who are assigned to road-building work. But is going ahead with its program constructing highways that cost from \$20,000 to \$10,000 for the hard-surfaced type, and around \$2,000 a mile for sand-clay surface.

The system provides for a road into Florida from Waycross, Georgia, extending along the east coast to Miami that will eventually extend to Key West when the contemplated Overseas Highway is completed; two roads through the central part of the state from north to south; one across the northern border from Jacksonville to Pensacola, and a number of others crossing the peninsula and western wing at different intervals. Another, the Tamiami trail, extending along the west coast from Tampa through the Everglades to Miami, is also under construction.

## TOURIST TRAFFIC STILL INCREASES

Estimated 250 Cars Passed Through Town During the Week—From Many States.

During the week ending today there has been an unprecedented volume of tourist traffic, according to garage managers who have been keeping a close check on the visitors. One manager estimates that at least 250 cars passed through town during the week, and there were many others who did not come into the main part of town.

Rudolph Wells, manager of the Middlesboro Motor company, says that on Wednesday night there were eighteen cars from eleven states in his garage for storage. The middle of the week was the apex of the business, he stated. Tourists are going in both directions now. A number of them this week were returning from the south to northern homes; others were traveling to southern points.

Wisconsin, Nebraska, Ohio, Alabama, California and many other states were liberally represented in the tourists of the week. It is noticed that a good percentage of them are coming into the business section of the town now. The opening of the Cumberland avenue block under the railway bridge has facilitated their access to the town and many of them come here, even if it is but for a brief time, to buy necessities or see the town.

Generally speaking, the tourists are sociable and appreciate any acts of friendliness or interest shown them. A number of business men who have no direct commercial contact with them make it a point to talk with them and welcome them to the city. This spirit of hospitality is commendable and cannot fail to leave a favorable impression of the place in the minds of transient visitors.

A garage man stated today that he had received inquiries for road information from points as far north as Connecticut. It is obvious that modern tourists do not depend on haphazard methods in traveling over the country; those with experience procure data on road conditions of unfamiliar territory. Middlesboro business men are doing much to enlarge the traffic by advertising the roads in this manner.

### Boosters to Engage Pruden Team Sunday

Middlesboro Boosters will meet the Pruden, Tenn., baseball team for a first game at the East End athletic field at 2 o'clock Sunday afternoon. The public is cordially invited to attend the game and root for the home team.

In many states the will or testament of an unmarried woman is deemed revoked by her subsequent marriage.

## Juvenile Delinquency Not A Seasonable Product

"Happy hearts and happy faces. Happy play in grassy places: That is how in ancient ages children grew to klugs and sages."

"We may either smother the divine fires of youth or we may feed it. We may either stand stupidly staring at it as it slinks into a murky fire or elude and hush into the intermittent blaze of July, or we may tend it into a luminous flame, with power to make clean and bright our city streets," says Jane Williams, the famous social worker whose name is an household word throughout America.

Judge Lindsay says that "playgrounds are better preventatives of delinquency than courts," and this is the testimony of juvenile court judges everywhere. In Chicago, for instance, it has been found in every study made of juvenile crime that it increased as the distance from the playground increased.

A certain judge and his friend were

discussing fishing and the great outdoors. "When do you start on your vacation?" the judge was asked. "He looked a bit wistfully toward the woods on the edge of the town. 'That depends on the playgrounds,'" said the judge. "If they open this summer, I can go away. If they don't, I'll have to stay on the job in town." The judge presided over the doings of the city's juvenile court. His explanation was that if they open, the youngsters will be kept off the streets and out of mischief. If they are not opened, the boys will roam at large looking for their fun. And, where boys play in the street, there are broken windows, false alarms of fire, hydrants turned on. And, very often, worse things happen."

Juvenile delinquency is not a seasonal product. Boys have plenty of leisure for play when in school, and their play life needs direction every day throughout the year. For play balls not only to body but the character as well.

here hid and watched. A huge water snake emerged from the pool looking well fed. He was caught, killed and

## SMOTHERING SPELLS

Lady Says She Suffered from a Burning Sensation, Headache, Dizziness, Until She Took Black-Draught.

Signal, Miss.—"For a year or longer I had indigestion, and had it bad," says Mrs. E. S. Holman, of this place. "Everything I ate hurt me. I would have burning in my stomach and smothering spells, and after meals, feel right dizzy. My head would begin to ache, and I would want to lie down, but felt I couldn't for I would smother."

"Unless one has had such trouble, they don't know what it is. I was talking to a neighbor one day and told her how I had been affected. She told me it was indigestion and to try Black-Draught, which I did. I took a few large doses and then a pinch after meals, and for fully four months now haven't had indigestion. I eat what ever I please and when I please, but keep up the Black-Draught—just an occasional dose."

When you have a feeling of discomfort after meals, try the suggestion above. Thousands of people have found that Black-Draught promotes relief in indigestion by stimulating the liver and stomach to perform their normal functions.

Insist on Thedford's, the only genuine well fed. He was caught, killed and

## Insurance Agents May Get Trip to Niagara

Metropolitan Life Insurance agents are offered free trips to Cleveland, Buffalo, Niagara Falls and Canada for qualifying in the matter of securing new business. About five in Middlesboro will in all probability, qualify, according to W. R. Estep, district manager. Managers get the trip regardless of whether or not the agents qualify. The contest will end August 25, and the winners will leave on the two weeks trip about September 10.

## Hotels Organize Own Posse Dry Officers

By Associated Press.  
LOS ANGELES, July 18.—Hotels and restaurants of Los Angeles have organized their own prohibition law enforcement bureau. Charles F. Gailing, former agent in charge of federal prohibition enforcement for Southern California, has been retained by a group of the leading hotels and cafes of the city and nearby points to direct the work. The plan, endorsed by State Prohibition Director S. F. Rutter, is to prevent employees of hotels and cafes from bootlegging.

## SUNSHINE SONNET

By Muriel Brewster

In youth the artist looks with eager eyes  
Toward the years ahead and sees his dreams  
Finished, complete—entire achievement seems  
To be the only goal that he would prize.  
But as the years make intervals on his heart  
His task, it seems, will fill eternity.  
There is no end, no song can perfect be;  
Life is too short, too long the path of art.  
When first the artist awakens to this truth  
He feels despair and hopeless, burning pain  
At loss of all the visions of his youth.  
Then he awakens and takes his tools  
Unfinished music need no sorrow bring—  
Some unborn voice the final song will sing.

## Mrs. Austin Entertains

Mrs. O. R. Austin entertained with five tables of bridge at her home on Winchester avenue at 10 o'clock this morning.

## Porch Dance Last Night

Mrs. G. W. Easton entertained with a porch dance at her home on Arthur Heights last night. Cake and punch were refreshments. Twenty couples were present.

## LITTLE MORE THAN HALF FIT PHYSICALLY

Frank L. Lee Calls Attention to the Playground Needs in the City.

## COMBATS PLAGUE

Outdoor Play Recommended to Check Deaths—What Recreation Program Means for Health of City

With 122 per cent of the community in impaired health, which is the figure fixed upon by the American Health Association, the importance of outdoor recreation and establishment of a playground and recreation system, from the health viewpoint alone, is graphically illustrated, according to Frank L. Lee.

"Furthermore, the same report points out that 28 per cent of our citizens are sick all the time; while but 35.2 per cent are definitely healthy, and only 16.9 per cent vigorously healthy," said Mr. Lee this morning. "This means that but a little more than half of our citizens and children are fully fit physically for the battle of life. Enough emphasis, therefore, cannot be put on the need for providing a recreation system, both to develop our childhood into a stronger citizenship, and to strengthen the physical health of those who have already reached manhood and womanhood. I cannot too strongly recommend the proposed playground and recreation system for it will be a big step forward in correcting these regrettable conditions."

"Other facts which bear out the seriousness of this public health situation are constantly coming to my attention. I have learned that one-third of all those who died, between the ages of 18 and 45 are killed by tuberculosis, most of which could have been prevented by proper living, which requires healthful recreation. While contagious diseases, through preventive work, have decreased enormously in the extent of their ravages, heart trouble, kidney trouble, digestive disorders, and nervous diseases have increased with terrific deadliness. The report of the American Health Association on this alarming condition states that the outstanding cause of this condition, 'is the decrease in outdoor life and vigorous muscular activity.'"

"With these facts in mind our community cannot be too conscientious in striving to stop this tide of ill health, by taking such logical preventative measures as providing for municipal recreation."

## MONEY WORN FOR MATRIMONIAL AD

Peasant Girl "Step Out" With Fifty Lure Worn on Garments.

Associated Press. ZAGREB, July 19.—Village maidens, in Croatia now carry their dowries in the shape of trailing veils worn on the bodies, instead of jangling necklaces and buttons of gold and silver. The new fashion results from the government ban on the possession of gold coins, which are no longer legal even as a medium of purchase.

Adapting themselves to the new order, the girls now sew bank notes of large denominations as they can afford in decorative lines on either side of the bodies as a token of their rating in the matrimonial market.

T. G. Breeding was a visitor this week from New Tazewell.

The Rev. J. W. Stewart will begin a series of revival services at the Methodist Church here Sunday evening.

## WIVES TO FOLLOW HUSBANDS' ORDERS

Hawaiian Court Holds Husband May Make Wife Live With His Parents.

Associated Press. HONOLULU, July 19.—A woman is not justified in deserting her husband because he compels her to live with his parents, according to a recent decision by the territorial supreme court.

In an opinion reversing the decision of a lower court, the supreme court justices held that Kui Yim-fong, Chinese, was not entitled to a divorce from William Fong on the ground that he failed to support her.

Evidence adduced at the trial indicated that William's wife had deserted him because he could not provide her with a home other than the one he occupied with his parents. She then changed him with non-support because

The man who marries a girl displaying half a million dollars, for instance, knows that she brings him a dowry of about \$100,000, and not a few young women display that much on feast days.

The remarkable thing about this display of such amounts of money is that here, as all through the Balkans, the young women are perfectly safe from robbery, as even professional thieves regard the stealing of a girl's dowry as unethical.

## CLAIM BAD ROADS CAUSE ILLITERACY

Sonora Girl in Essay on Good Roads Says Education and Roads Go Together.

"While the taking of a wife to the home of his parents," the court held, "is perhaps not the best and ideal method of supplying her with a home, it cannot be said, as a matter of law, that that fact alone justified the wife in deserting her husband."

After having been closed three nights in the week for the past two weeks, the Brown Amusement company announces the re-opening of the Manring every night beginning Monday, July 21.

This paper is advised by Manager Brown that the Brown Amusement Company has no desire to keep this beautiful theatre closed and would certainly not do so if adequately supported. He is therefore re-opening in an effort to determine which theatre Middlesboro people like the best, the Manring or the Brownie.

Water freezes every night in the year at Alto Cruceiro, in Bolivia, while at noon the sun is almost hot enough to blister the flesh.

## MANRING THEATRE RE-OPENS MONDAY

Manager Brown Trying to Get Kind of Attractions Patrons Desire.
